

Dear Applicant,

I would firstly like to congratulate you on your success on moving to the next stage of the interview process. This is the first stage of the interview process. This task will test your abilities within Roblox Studio. Depending on your skillset the tasks can be found below. The current skillsets we are allowing interviews for are as follows: Builders, Modellers & Scripters. Each task detailed below has 48hrs for it to be completed. Only one of the tasks is to be completed, this should be the skill you are most experienced in. The task should be completed in a blank baseplate and then the game should be downloaded and emailed to [mdly-dev-recruitment@moderley.com](mailto:mdly-dev-recruitment@moderley.com). If any help is required, please do not hesitate to contact us.

Best of luck,

Harry T  
Chief development Officer  
Moderley Group

## Task 1 – Modelling

For this task, you are expected to produce a high quality model of a product of your choice. All these roles require a certain level of skill, so we ask that you make this product work as a tool. This does not need to be clickable etc.

Brief:

You have been requested to produce a high quality model of a product of your choice.

- Work off a reference image
- Make it an actual tool with a handle etc
- Make it a real product

You have 48hrs from this document being sent to complete it. The final form should be emailed to [mdly-dev-recruitment@moderley.com](mailto:mdly-dev-recruitment@moderley.com) in a rbxl file format.

Best of luck,

Harry T  
Chief development Officer  
Moderley Group
